

## FOR IMMEDIATE RELEASE

### APT Gallery Presents "Inner Rhythm," a Dynamic Exploration of Contemporary Abstraction

**LONDON – [25 April 2024]** – APT Gallery is excited to present "Inner Rhythm," a vibrant group exhibition exploring the expressive power of non-representational art. Featuring six of the most dynamic new (and established) artists currently working on the UK Art scene – Bijanka Bacic, Thorbjørn Bechmann, Erin Bird, Alba Botines, Beñat Olaberria, and Michael Wegerer – this exhibition showcases a stunning and diverse range of abstract approaches spanning multiple perspectives.

"Inner Rhythm" invites viewers to delve into the captivating interplay of colour, form, and texture. Bacic's energetic compositions, Bechmann's ethereal realms, and Bird's fluid waterprinted abstractions evoke a sense of dynamism and sensory experience. Botines' joyful exploration of colour and line, Olaberria's fragmented glimpses of experience, and Wegerer's bold fusion of printmaking and sculpture all highlight the artists' unique processes.

In keeping with the contemporary *zeitgeist*, this unique collaboration is the result of the artists' initial connection on social media, leading to the co-creation of the exhibition. "Inner Rhythm" fosters a rich dialogue within the contemporary art community, post-lockdown - enriching the ongoing exploration of contemporary abstract painting.
